

SERVICES OPEN KENDALL'S GYM

Building Dedicated by E. P. Harwell at Cost of \$110,000 Opened

DEDICATE TO MANHOOD

Physical Education of Men and Women of School, Purpose of Newest Edifice

With appropriate exercises Harwell gymnasium, newly completed on the Kendall campus at a cost of \$110,000, yesterday afternoon was dedicated to the cause of physical training for young men and women who are today and in the future will be students of the institution. The physical education of the future, was the subject of an address by Professor James Naismith, head of the department of physical education of the university of Kansas and originator of the game of basketball. In the final dedicatory address on the program, C. E. Buchner, a member of the building committee said of E. P. Harwell, donor of the gymnasium, "It was with some such thought as that of the value of physical education emphasized by Mr. Naismith that Mr. Harwell gave the building."

Response Read
The dedicatory response reading, given in by the audience and led by Mr. Buchner was as follows: "We dedicate this gymnasium for the prevention and correction of physical ailments; for the development of full chests, capacious lungs, and broad shoulders; for the development of erect postures, lithe bodies and graceful movements; for the development of rhythm and imagination and an appreciation of the wonderful gifts of nature; for the development of the vigor, strength, endurance and skill; for the development of the social senses giving pleasure and enjoyment; for the development of perfect co-ordination."

FOR WOMEN

For over half a century DR. TUTT'S LIVER PILLS have been sold for the liver. Read the following from a woman of forty-eight: "I have used DR. TUTT'S PILLS for Bowel regulation many years. I am now convinced that they are also the best known regulator for other retarded female functions. I have told many of my friends and now none would be without them. A few days before, and you are all right."

Number of Jobs Are Now Open for Boys

Fred E. Woodson, in charge of the work of the employed boys at the local Y. M. C. A., said yesterday that he had on record a number of applications from reliable firms in the city for boys 16 to 18 years of age. Since the opening of school boys are hard to find and there are a number of jobs that require full time work, for boys who do not go to school.

of brain and body giving alertness and quick response; for the development of daring, skill, courage and strength; for the bringing about of the ultimate aim of systematic physical training, namely, to prepare and keep the temple of the body ready to respond to any wholesome stimulus, promoting physical, mental and moral growth and development and growth; for the glory of God and the ushering of His kingdom when there shall be the perfect physical, mental, and spiritual man."

That physical training is becoming more and more stressed was the thought expressed in a talk by Mr. Naismith. In introduction he said: "It is always a pleasure to me to witness the inauguration of a building for physical education, and the pleasure is especially great in this instance. A few years ago we all heard of Kendall's wonderful football team and then we were more than gratified to learn that every one of that team early offered their lives for their country. That is the kind of a thing that we expect our trained leaders to do. I met a Kendall football man in France during the war."

A reaction is now setting in from **Girls! Radiant Beauty Can Easily Be Yours**

There is no secret about it nor is there any doubt about the results—it's just common, ordinary buttermilk in the form of a wonderful cream. The directions are simple and it costs so little that any girl or woman can afford it. Be sure you get

the tendency of several years back to disregard the body as almost non-essential, he said. "Man is by nature an active animal and it is by activity he has advanced. Previous to the war we began harboring the idea that all we needed was brain power. We had autos to drive us around, elevators to lift us, until we got to thinking that the body was of no importance. The trend of thought was that the brain was the only thing necessary. That is a mistake. Biologically, the body is a necessity. For generations we have been living through activities of the body."

"The present incoming class at the university is the best developed I have seen in years. The war has brought this condition about. War awoke the people to thought of physical development so much that 15 states have passed compulsory physical education laws for children."

Universal recreation and physical training for all grades and classes of people is needed, he said in conclusion. "It is worth while for the man and woman of 40, 50 and on up to have some kind of recreation."

No Risk With "Diamond Dyes"

Colors Never Streak, Fade, Run or have that "Dyed-Look"

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich fadeless color into worn, shabby garments, draperies, coverings, everything, whether wool, silk, cotton or mixed goods. Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Drugist has color card, showing 16 rich colors.—Adv.

Spur Cigarettes
20¢ for 20

You're taking the right step when you switch to Spurs

YOU can't do better. After you've smoked through a pack of Spurs, you won't want to go back to other cigarettes. You'll find your old kind sort of flat and uninteresting, like last year's politics.

For Spur's good tobacco taste can't help but win you for keeps. There's rich, mellow Turkish, flavorful Burley and other home-grown tobaccos blended in a new way that brings out to the full the all-round goodness of this top-notch cigarette.

And Spurs top, all—all ways. They're crimped. That means slow burn, smooth taste—no paste. The smart "brown-and-silver" package is three-fold to keep Spurs fresh and fragrant.

Twenty cents will prove that Spurs are your kind of cigarettes—top-notch quality at rock-bottom price. The sooner you try them the gladder you'll be.
